CALCULUS AND MATRIX ALGEBRA FOR BUSINESS

- Ranthony has done a wonderful job teaching this calculus discussion. Not only did her classes correlate with Charles' to help us understand the material, she tried to make math more enjoyable. She was also willing to meet me and help me outside her office hours because I couldn't meet with her then. She understands all the material and does a great job of explaining it when students are confused. By far the best TA I have had at Iowa.
- You were a great TA Ranthony, I really appreciate all the help and how well you taught the material we learning, keep doing you. Cheers!
- Ranthony was the only reason i survived half of this course. she is awesome and deserves to be the professor.
- You are an amazing math teacher, you should have lead the lecture too because you are the reason I will pass the class. I am sorry the discussion class is so awkward, I agree with you that is was weirdly quiet. I am a junior and you are my favorite TA I have ever had! Keep going on with teaching! Thank you!
- Ranthony was a very good substitute lecturer when Charlie was sick. Very good at explaining things and clearly cares about the course.
- I was never apart of Ranthanys class however she did sub for Charles lecture a few times. Each time she was well organized and explained the material really well for us. What I really like is that she created a review guide before each midterm that all calc students were able to use, it was very beneficial.
- Did an amazing job teaching those lectures that Frohman was unable to make. I believe it was actually much clearer and more effective than Frohman.

BASIC ALGEBRA

- This class is well organized, as well as, taught well. Although the pace may be a little rapid at some points, this is a good course and Ranthony does well as what she does.
- She is awesome! I enjoyed her class and i hated when i left early. Thanks for everything!
- Wonderful teacher. Makes learning fun, she cares about you as a person. Very bright and upbeat.
- This class has really benefitted me with my math skills and Mrs. Ranthony is an excellent instructor. I have never been a fan of math but Mrs. Ranthony has helped me tremendously throughout this course. I probably wouldn't go to math lab as much if she wasn't so helpful.
- This was one of the best math classes I have been in and I was very pleased!

- Ranthony is a super fun, smart person and I loved having her as a teacher.
- Ranthony was a great instructor and I really enjoyed the class.
- Really liked my teacher! She did a great job of teaching the material and she was really nice.
- Ranthony worked hard and her hard work showed in her teaching! She's dedicated and inspiring.

TRIGONOMETRY

- Ranthony is very well organized. The video lectures and video quizzes have been an excellent way to help us learn. Her use of technology online and in the classroom facilitates student learning. Exams and quizzes have been designed effectively. The class activities stimulated learning and I enjoyed her sharing about her talk in Chicago. Her enthusiasm is effervescent. Thank you Ranthony.
- Ranthony was extremely organized in teaching her course. She posted well put together videos on ICON to aid our learning, and her in class presentations were also very well put together. There were a few times that there were homework questions that felt like they covered material that wasn't presented to us, but Ranthony was very good about utilizing office hours to go over any questions we didn't understand.
- I liked the games and other Monday activities. They're actually really helpful and make the class interesting. You're cheerful and helpful, which is good for a math course because it could easily be so boring. It would be nice if you didn't have to erase so much, but the board pictures more than make up for it and are great study tools. You're a fair grader and always let us know what to expect. I like that there's no really huge surprises.
- Always had the help and materials needed to be successful.
- This is a great course with a great teacher. She is helpful and concise, and you can definitely tell she is passionate about math.
- My favorite class because of the fun environment and the awesome teacher.
- Ranthony always made a positive atmosphere in class and it was enjoyable to be a part of.
- You can tell that Ranthony actually cares about teaching this course as she goes above and beyond with in class activities as opposed to just a standard lecture like how many other TA's teach their classes.
- Something's were confusing but she provided excellent notes and slides.
- I think some more time could've been given for homework but overall this was a well taught class.
